# FREIGHT

All goods, except coal oil, are quoted freight paid to your nearest railway station in Ontario, except to points north of the lakes, that is, on the north shores of the Georgian Bay and Lakes Huron and Superior; neither do I pay freight to stations farther north than Gravenhurst, nor east of Almonte.

To all these outside districts I ship goods with the understanding that the buyer pays freight from Toronto, and I allow a discount of three per cent. off invoice.

Prices are cut so fine in this catalogue that I will not have sufficient profit to prepay freight on any order amounting to less than ten dollars, but instead will allow three per cent. discount off invoice.

However, to introduce my teas, I will prepay freight on ten pounds, or twenty pounds of siftings, as I am confident that, once you have tried them, you will need more.

# Patrons of Industry

AND

# Farmers of the Dominion

**G**ENTLEMEN,— My 1894 Spring Catalogue is, as you will notice, even more complete than any heretofore issued, being almost doubled in size, and the articles therein described, consisting of Groceries, Hardware, Drygoods, Boots and Shoes, Patent Medicines, Tinware, etc., etc., are in most cases reduced in price.

In preparing this list, I have endeavored to cut the prices to the very lowest point consistent with first-class goods ; and as I conduct my business with the least possible expense, I am satisfied no other house in Canada can undersell me, and I defy them to even offer as good value.

As to our relations in the past, I can say without contradiction, and thousands of farmers throughout Ontario and the Northwest who have dealt with me the past four years will bear me out when I say that all transactions are conducted on a strictly business basis, free from any attempts to take advantage, and everything I sell is, to the best of my knowledge, exactly as it is represented.

I am now again seeking your patronage, and I can only say that I will endeavor to continue to do in the future as I have done in the past.

You will notice by comparing my prices with those asked by the Retail Merchants throughout the Dominion that the advantages which it was set out you would receive through organization have been fully realized, as you are to-day buying your requirements from twenty to fifty per cent. cheaper than a few years ago, and this is only one of the many objects which you have accomplished.

I pay freight on all goods, except Coal Oil, to railroad stations in Ontario south of Gravenhurst, and consequently you are saved all trouble of adjusting overcharges with the railway companies.

If you have not dealt with me, send a trial order ; I guarantee satisfaction. Thanking my customers for their patronage in the past, and hoping for a continuance of their favors, I remain,

Yours truly,

**F. W. HUMPHREY.**

## CUTLERY

In comparing my prices on cutlery with other catalogues remember that my competitors, in copying my price list, although they have given you my numbers, they do not send out the same quality of goods. As you are well aware, there is a lot of cheap imitation cutlery on the market, and these dealers send you this, although they know it will not give you satisfaction. They make their profit at your expense.

## : Notes :

If you would like a number of my Price Lists for distribution among your members, kindly drop me a post card, and I will send you some by return mail.

I will ship you ten pounds of Tea, freight paid, to your nearest railway station.

I cannot ship less than twenty pounds of Tea Siftings separate.

If you are not prepared to send a general order for goods, I will ship a ten pound caddy of Tea, and if it is not satisfactory you can return it at my expense of freight, and I will refund your money.

I make no charge for cases in which I pack my goods.

I am often asked to ship orders on which my profit does not cover the freight, consequently I cannot afford to fill them ; so you will please remember, when making up your order, to make it as large as possible.

I do not agree to pay the freight on any order amounting to less than ten dollars, unless it contains a ten pound caddy of Tea.

Any goods you receive from me I will guarantee to be satisfactory ; and if you find them not as represented, you can return the goods, and I will pay freight both ways and return your money.

I do not employ any agents on commission or salary, and therefore am not under the heavy expense of other houses who employ agents.

Remember, the prices quoted in this list are freight paid to your nearest railway station.

I will ship five pounds of Tea when ordered with other goods ; but when ordered alone, ten pounds of Black, Green, or Japan, or twenty pounds of Siftings, is the least quantity upon which I can pay freight.

Any of your neighbors who would like to buy wholesale, and who have not been receiving my list, kindly send me their names and address, and I shall be pleased to forward them a catalogue.

It will pay you to club together with your neighbors and order in bulk as much as possible, and receive your goods at wholesale prices.

All Mail Orders receive my most careful attention, and are filled promptly at the same prices as if you were here personally, although when you are in the city I would be glad to see you.
